EUROPEAN URBAN RESILIENCE FORUM

14-15 September 2022

Athens, Greece

SAVE THE DATE:

The 2022 edition of the European Urban Resilience Forum will take place on 14 and 15 September in Athens, Greece.

Since 2013 European Urban Resilience Forum (EURESFO) offers a unique exchange platform where city representatives and stakeholders from various local and regional institutions come together to exchange and discuss strategies and actions to adapt to climate change, manage disasters and build urban resilience. The event is a European initiative driven by ICLEI Local Governments for Sustainability and the European Environment Agency (EEA), and this year will be co-organised by the City of Athens.

In September, all those seeking to shape a climate-resilient future for our cities and regions are once again invited to take part in the discussion and to meet up in Athens (Venue: Technopolis). Registration is already possible!

REGISTER NOW

The forum will keep its informative, open and interactive character, maintaining its 'PowerPoint free' format. Participants are encouraged to share experiences and points of view on a variety of topics that will explore challenges in urban resilience planning and implementation.

Stay tuned on our website (www.urbanresilienceforum.eu) and follow our Twitter account @Urb_Resilience for all the latest updates and programme announcements for #EURESFO22!
